Service Philosophy

We at Bundamba School Age Care believe in the rights of the child and that their physical, personal, social, emotional, cultural, spiritual, linguistic and cognitive needs are met in a safe, caring, inclusive and supportive environment.

The Service provides care in a way that creates a safe and secure environment where children are encouraged to develop curiosity, cooperation, confidence, creativity and commitment to enhance their self esteem and positively exercise their developing autonomy and initiative.

We believe in building lasting relationships with children, families and the wider community. We respect children's dignity and privacy and encourage families to collaborate with the Service regarding their children to promote understanding and growth whilst maintaining and respecting confidentiality.

We encourage children to have a strong sense of identity and wellbeing whilst promoting them to be confident, involved learners and effective communicators.

Bundamba School Age Care endeavors to deliver an educational program that encompasses all ages, genres, developmental levels whilst still catering for the individual child no matter their ability, age, gender, race, intellect, interest or learning style. We use a wide variety of different practices, theorists and information gathering methods to develop our inclusive program.
